### THE POLICE BOARD ACQUITS THE CAPTAIN -MARTENS MAY HAVE TO GO.

olice Board yesterday dismissed the charge Captain Cope;and, of the Union Market Staion, and Roundsman Kirzinger, of his command, were tried for failing to enforce the Excise law n the saloon of a brother of Sergeant Fagan, of the East Thirty-fifth-st. station. Commissioner Roosewelt himself, on one of his Sunday tours, saw that he law was being flagrantly violated and had the ender arrested. Charges were then made against the captain, the roundsman and Patrolman James elly, who was on post in front of the saloen, nissioner Andrews, who tried the charges, ecommended the dismissal of the charges against captain and the roundsman. In the course of ussion about the case, it came out that Commissioner Roosevelt wanted to reprimand Captain Commissioner Parker said that he had read all the evidence in the case, and was of the opinion that the captain could not be held respongoing to hold a captain responsible because there place open in his precinct," said Commissioner

Further talk about Captain Martens's case let to favor dismissing him from the force. Captain Mar-teps was tried on a charge of accepting a \$15 bribe from Moses D. Hamilton for designating the lat-ter's store as a polling place for the election of 1891. Commissioner Parker stated in regard to Captain Martens that he was doubtful if dismissal would be sustained in court. He said that so much out-side matter had been let into the case at the Cap-ain's trial that he feared dismissal would not stand.

Parker also asker about Captain Devery's Commissioner Andrews stated that Mr. Moss. e Parkhurs: So dety, was preparing charges st Devery. It's understood that Captain y is to be tried by the Commissioners on the es of extortion made by Mr. Siegrist, the er. Before 4 jury, Devery was acquitted on sit's charges. "There are several other cases before the Committee on Rules and Discipline to ught to be disposed of," said Mr. Parker, sey on hurry up somebody may come and lain against somebody." propable that Captain Martens's case will ed en at the next meeting.

### J. EDWARD SIMMONS ROBBED.

onal Bank, was a complainant in the Centre Street Court yesterday morning against Joseph Bauer, on years old, of No. 347 East Seventy-secondas an electrician's assistant, stole a pair of diamond as an electrician's assistant, stole a pair of diamond sleeve links, as Masonic fob charm and a diamond ring, all valued at \$250. These he pawned for \$55. The theft was reported to the Central Office, and Detectives Holland and Berkley traced the larceny to Bauer, and yesterday arrested the lad at his home. He confessed the theft and returned \$50 of the money received from the pledging and the pawn tickets. Maristrate Wentworth held the prisoner in \$1,000 for trial.

### OLD OFFENDERS, IT IS SAID.

# A FURTHER CHARGE AGAINST TWO MEN WHO

against the two diamond thieves who were on, for stealing a diamond from the store arraigned in Jefferson Market Court yes-Murphy twenty-seven years old, address re-

parters yesterday morning. There they were ized by Central Office Detectives Deevy and men who had robbed Edward Mahler, a 733 Sixth-ave., on September 18, and Joseph Smith, a salesman in the jewelry store of Mrs. Lynch, at Broadway and Fourteenth-st, was in Jefferson Market Court yesterday morning, and said that Roberts and another man, who, the police think, is one of the two men who were with them and who escaped, called at the store last Saturday and looked at rings valued from \$1,200 to \$3,000. Smith said that as far as he knew the men had not succeeded in getting anything at his store.

Both Mahler and Levy were complainants in Jefferson Market Court yesterday morning. The two prisoners pleaded not guilty to both charges, waived examination and were held by Magistrate Crane in \$1,000 each for trial on each charge.

Claus, Deputy Judge-Advocate of the Department f the Missouri, with reference to the defects of the buildings used for the confinement of military prisbuildings used for the confinement of military prisoners, shows that resort to the effective punishment of solitary confinement is impracticable. Nor is it practicable to separate the different classes of prisoners from each other, nor to separate soldiers awaiting trial from the prisoners under sentence. In the reports of two of the judge-advocates attention is again called to the insufficiency of the reward for the apprehension of deserters. General Lieber again calls attention to the absence of any established system of criminal jurisdiction in places held by the United States for military purposes, and recommends the passage of the bill submitted to the last Congress to remedy this defect.

### RETURN OF COMMISSIONER WARING.

HIS TRIP ABROAD-INSPECTION OF STREET CLEANING IN EUROPEAN CITIES.

The two tugs that went down the Bay on Tues day afternoon to meet the North German Lloyd Ems, with Colonel George E. Waring, jr., Commissioner of Street Cleaning, on board, had a rather hard time of it. The Ems, on account of the fog, did not run within sight of Fire Island, preferring to keep away from the shore, and so she was not sighted there. She reached the Lower Bay and anchored there early in the evening, but the tugs did not find her, and so they cruised about all night. The Daniel S. Lamont, the tug of the Supervisor of the Harbor, with a number of the Department officials, met the Ems at her pier yesterday morning and took Colonel and Mrs. Waring across the river to Seventeenth-st. The other tug, belonging to the Mutual Company, also followed the Ems up the Bay, having on board a number of employes from the various divisions of the Department.

Colonel Waring reached his office yesterday afternoon about 3 o'clock, and was warmly greeted by the men employed there. When seen by a Tribune reporter in regard to his trip he said: "My vacation has been a most pleasant one, and the latter part of it combined business with pleasure. I sailed wife and I took a cycling trip through the Tyrol we passed a pleasant month. The trip was made account of the snow and ice. I think that the coun-

and visited Vienna, Munich, Berlin, Hanover, Cologne, Brussels, Birmingham, London, Paris, Turin and Genoa, from which port I sailed on September 17. I had one day in Naples on the way home. Of all the European cities that I saw, Cologne and Turin were the cleanest. No two of the cities that one of the systems employed would do for the cleansing of our great city. But I have brought home with me a number of ideas, which are not yet arranged sufficiently for me to say what, if any, of the methods employed there will be used in my Department. Paris is a clean city, but there is a great deal of paper flying about. None of the European cities pay as much as we do. In Genoa the men receive 40 cents a day, while the men doing the same work in New-York receive \$2 a day. I do not know much about the current issues at stake now over here, but I will say that whenever I had gold money in my pocket, no matter from what country it came, I had no trouble; but when I had any silver money I had to be careful to rid myself of it before I left the boundaries of the country to which it belonged. the systems employed would do for the

longed."

A reception was given to Colonel Waring in the main office of the Department about 5 o'clock yesterday afternoon by the children who are members of the two leagues instituted by him to help in keeping the streets of the lower East Side clean. Short speeches were made by three of the children, and a huge horseshoe and a basket of flowers were presented to the Commissioner.

stocks not cleaning up as promptly as a few days ago, still supplies are not considered large, and holders inclined to remain steady in their views at 174/6186; the latter price is extreme, but it has been made in sufficient quantity to warrant the quotation. Buyers, however, shop around closely and when compelled to pay the top price limit their purchases to smallest possible quantities necessary for their urgent and immediate needs. There are plenty of good average Western eigs freely offering at 1149c. Refrigerator stock is working out fairly, though a free movement is interfered with by continued moderate weather. Prices are steadily held at generally 15c for prime Western, though some exceptionally fine marks are seiling at 1549c. Seconds and culls continue in moderate supply, and with a good demand from cheap buyers prices are held firm.
